DATASHEET · K2 ADD-ON · RELEASE 2.6

Masar Process Suite

The process library for Nintex Automation K2: document every process, draft it with ActiBot AI, approve it by RACI and see how it really runs.

Document faster
ActiBot AI turns a title or an SOP into a draft map in seconds.

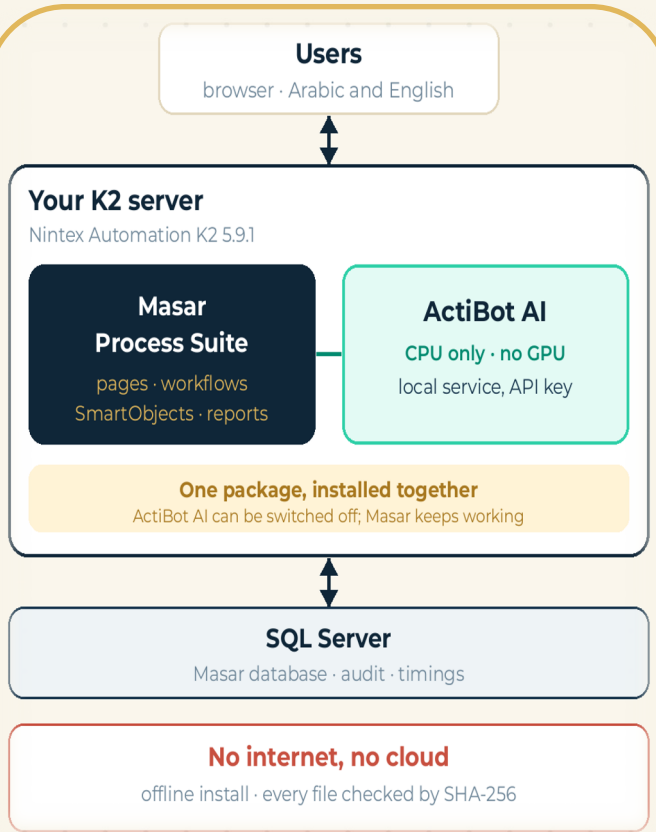

Real timings
Time and run count on every step, from K2's own records.

Audit-ready
RACI approval, versions, review dates and a full audit trail.

Private by design
Runs on your K2 server. No cloud, no internet.

Arabic first
Arabic drafts, Arabic search and right-to-left maps.

Linked to K2
Each process tied to the K2 workflow that runs it.

Specifications

- **Platform:** Nintex Automation K2 5.9.1, on premises
- **K2 server:** +4 cores (AVX2), +12 GB RAM, +10 GB disk
- **SQL Server:** +2 GB RAM for the Masar database
- **ActiBot AI:** included, CPU only, can be switched off
- **Governance:** human review, prompts logged

What Masar offers

- **ActiBot AI generator:** drafts from a title and an objective or an SOP in Word or text, and refines existing processes.
- **Process Suite:** BPMN 2.0 maps, Visio import, PDF and Word export, versions and review dates.
- **RACI approval:** in the K2 worklist, by the people named on each process.
- **K2 Link:** processes and steps tied to their K2 workflows, with live status.
- **Process Discovery:** real timings and paths from K2's own run records.
- **Reports:** 44 reports and 4 dashboards on Power BI Report Server.
- **Risk, incidents, training:** controls on steps, incident workflows, training by role.
- **Automate with ActiBot:** an approved process becomes an automation request.
